

Tina Alesi

Artist statement

I have been painting as a hobby for the past ten years. Since undertaking a diploma in Visual Art in 2004, I have become much more focused and passionate about my work. I have developed my work this year, and hope to continue and become a professional artist.

My work I feel, is an exploration of abstraction with the intention of creating layers and different dimensions within the work. I also am expressing a journey of my life and the colours that capture my memories and my intuition.

I feel as though my work expresses who I am, and my experience in life. I love colour and expressive energy. My work for me is a joy to create and I hope others feel that too.

I love working on canvas and on a larger scale as this gives me freedom and assurance of a good support. I am inspired by such artist as Henry Matisse, Angela Brennan, Dale Frank, Cy Twombly, and Mark Rothko.

The works in this show express all my passion and love for my life and art. This journey is just the beginning of a new world that I find necessary to my experience in life.
